

Visu Lounge Chair Wood Base

“The idea for the Visu Lounge Chair was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. The Visu Lounge Chair is designed with elegant curves and grand comfort for a new perspective on the traditional wooden chair, echoing the ideas of Scandinavian design together with a modern expression.”

— Mika Tolvanen

Designed by	Mika Tolvanen
About the Designer	Mika Tolvanen is part of the Finnish Rehti Design group. After graduating from the Royal College of Art with a Master in design in 2001, Mika established his own design office in Helsinki. He has since worked with some of the world's top designers and manufacturers.
Environment	Indoor
Country of Production	Latvia
Preassembled	Yes
Description	The Visu Lounge Chair provides maximum comfort in an unconventional Scandinavian silhouette with a sturdy base and shell in form-pressed veneer.
Material	Shell is form-pressed. Base is cut and all elements are lacquered. Non-upholstered version: Form-pressed oak or ash veneer shell and base, both in water-based lacquer. Upholstered version: Shell is made in formpressed veneer with foam and fully upholstered with textile or leather. Wood Base in formpressed veneer with water-based lacquer. Oak and ash veneer: slight color variations can occur due to the inherent characteristics of the material.
Cleaning & Care	Clean on a regular basis using a damp and clean cloth. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects as these can leave scratches in the wood and lacquer. For textile upholstery versions, please find specific cleaning instructions for your chosen textile at kvadrat.dk. For leather versions, clean leather with a dry cloth regularly. Treat the leather when needed using only special leather treatment products. Both versions with PU lacquer and water-based lacquer of this product can be cleaned with alcohol disinfectant. However, please note that as wooden products will get patina where the surface color can slightly fade. If cleaning is uneven, this may become even more apparent yet the lacquer will stay in place. For wooden products in lighter colors, the patina will be less apparent.
