

APPLIQUE RADIEUSE

Le Corbusier

In 1949 Le Corbusier conceived Applique d'entrée des appartements, a wall lamp of curved metal sheet to enlighten the entrances of the Unité d'Habitation in Marseille, the housing unit symbol of the Modern Movement in its architectural and urbanistic conception. The Master designed the paradigm of the wall lamp, giving it the maximum efficiency while hiding the light source.

E26

LAMPING

Source	E26
Total power	2x40W
Emission	indirect
Switching	mono switch dimmable according to bulb
Tension	120V
Ip class	20
Dimensions	5.3'x 5.2'x 13.1'
Materials	metal
Notes	white RAL 9002, red RAL 3002, blue RAL 5015, orange RAL 2011, green RAL 6016, square cover plate included
