Description

In his quest to add movement to the surface, our designer Alain van Havre started layering and combining triangular shapes. Before he knew it, he had created an interesting composition out of teak. We ended up brushing the surface to highlight the grain and further emphasize the feeling of motion. Originally used for our popular Teak Graphic sideboard, the pattern now translates perfectly to a new TV cupboard.

This Graphic TV cupboard features 1 flip-down door and 1 drawer.

Designer Alain Van Havre

For Alain van Havre, inspiration is everything. Deeply connected to his environment and passionate about natural materials, he has developed an exceptional expertise for woodworking. Over the years, he has created his own visual language centred around form, a translation best described in collections such as the Bok, Graphic, Pl, and Stairs. He believes that for someone to connect with a design, it is important to bring it closer to nature. Over the past 20 years Alain has played a pivotal role in influencing the Ethnicraft designs we know and love today.
