Description

One shape, a thousand possibilities. When Alain van Havre was creating a range of sculptural side tables, he was simply playing with different shapes. That is often when the most interesting things happen. Along with the rest of the series, the Oblic side table represents his love for movement. Through the use of negative spaces, a constant dynamic comes to life, making them look like different sculptures from every angle.

Designer Alain Van Havre

For Alain van Havre, inspiration is everything. Deeply connected to his environment and passionate about natural materials, he has developed an exceptional expertise for woodworking. Over the years, he has created his own visual language centred around form, a translation best described in collections such as the Bok, Graphic, Pl, and Stairs. He believes that for someone to connect with a design, it is important to bring it closer to nature. Over the past 20 years Alain has played a pivotal role in influencing the Ethnicraft designs we know and love today.
